

A LOW-DOSE COMBINATION DRENCH

CONVERGE is an ML/clear dual combination oral drench for the management of internal parasites in sheep and cattle

- ML/clear combination
- Low-dose oral drench
- 1mL/10kg for sheep and cattle
- 14 day sheep meat withhold
- 10 day cattle meat withhold

Registered for:

CONVERGE controls internal parasites in sheep and cattle. It is a short-acting ML/clear dual combination oral drench.

CONVERGE contains the drench actives abamectin (ML/mectin) and levamisole (clear). Abamectin belongs to one of the best drench families for controlling *Ostertagia* species. Levamisole has retained efficacy against *Cooperia* species, worms that commonly show resistance to other drench families in cattle.

CONVERGE contains two of the best drench actives for cattle, and is more cost-effective than using a pour-on.

CONVERGE is a low-dose formulation in sheep.

CONVERGE aids in the supplementation of selenium and cobalt.

More great reasons to buy CONVERGE:

- **FREE GUN** Receive a free 15mL defender drench gun with every drum of CONVERGE
- **PRIORITY PARTNERSHIP POINTS** Earn 280 Priority Partnership Points for every 10L and 140 Priority Partnership Points for every 5L CONVERGE drum that you buy.

Withholding times:

Sheep – Meat: 14 days

Cattle – Meat: 10 days

Milk: 35 days
